United States Supreme Court Records and Briefs

Part Three
1971-1880
Preface

During the decade of the Civil War the careful arrangement of the copies of the Records and Briefs of the United States Supreme Court held by the Jenkins Memorial Library of the Pennsylvania Bar Association was temporarily disrupted. In 1872, however, order returned: the Records and Briefs were arranged thereafter in a sequence which paralleled the reporting of the opinions of the Supreme Court in the Tables of Cases of United States Reports.

We have, therefore, divided the Part Three index to cases in the Records and Briefs into two sections: Section A which covers the years 1870 and 1871; Section B covers the years 1872 to 1880. The complete index will be found in the "Index Reel" to Part III which is included at no additional cost to purchasers.

In Section A, the index is designed as follows. First, a copy of the alphabetical Table of Cases for the volumes of the United States Reports is provided (columns A and B). Then, on the right-hand margin of each case, we have designated the number of the reel in which the case appears in the microfilm set of the Records and Briefs (column C), the volume in which the case appears in the original series of the Records and Briefs (column D), and the sequence number of the case in the volume (column E), since the cases were not paginated continuously through the volumes.

The researchers will also note that there are some cases whose records appear in the Records and Briefs but were not reported in United States Reports. These cases appear to have been brought before the Supreme Court but were denied certiorari.

In Section B the index is designed as follows: the contents of each volume in the Records and Briefs are keyed to the pages in United States Reports in which these cases appear. Since the organization of the Records and Briefs after 1872 parallels exactly the sequence of cases in United States Reports, our index provides only the page number from the Reports for the first and last case in each volume of the Records and Briefs.

The Records for each case include an internal index, and the Briefs follow the Records for each case in sequence. As in Parts One and Two of the microfilm set of the Records and Briefs, illustrations can be found at the end of each reel where appropriate, and their locations in the original text are noted in the film. Some pages in the original documents were found to be damaged, but in most cases the text is legible.

The Records and Briefs of the Supreme Court of the United States were produced by Scholarly Resources in cooperation with the Jenkins Memorial Law Library of the Pennsylvania Bar Association. We would like to again express our thanks to the Jenkins Library for permitting the use of its set of the Records and Briefs, thus making this important source available to lawyers and scholars everywhere.
